

“I recently worked with LS Interiors on my family room, living room and my daughter's bedroom. I had very definite ideas of what I wanted my home to look like but had spent months trying to figure out how to realize these visions.

Leslie was absolutely wonderful to work with. She has a fabulous eye for spatial arrangement, color and overall effect. She took me to showrooms that I would otherwise have had no access to and helped me sift through the overwhelming options available to me. Her attention to detail (both on the design and business end) and ability to offer experienced suggestions while respecting my feelings were impressive. I could not be happier with the results. Anyone who feels that decor is not important should visit a home furnished with LS Interiors.”
